#### THAT GRAY'S HARBOR MILL.

And the Pacific Pine Lumber Company.

Post-Intelligencer, 21.

A prominent sawmill man on

the sound, who was on a visit to

Seattle yesterday, in conversation

with a reporter, said: "I notice

the Post-Intelligencer has had

considerable to say of late about

the Pacific Pine Lumber company

and its project to build a large

mill at Gray's Harbor, and I am

glad of it, for when the facts are

known the people will see what

we are doing to keep Puget sound

in the lead as a lumber producing

section. There are some points in

regard to this matter that have

never been explained in print,

and I will tell you what they are.

In the first place, as you know, the

Pacific Pine Lumber company is a

corporation organized under the

laws of California for the pur-

pose of combining and uniting the

sawmill interests of Puget sound

under one head, and to prevent

the mills from cutting one another's

throats in the markets of San

Francisco. Every large sawmill

on Puget sound has a representa-

tion on the board of directors, and

all the lumber cut on Puget sound

for the San Francisco market is

handled by the Pine Lumber com-

pany. The statement in this

morning's Post-Intelligencer that

the Simpsons, who have mills at

Gray's Harbor, have refused to

join the association, is true, but

that is not the worst of it. At

present they have the largest mill

on Gray's harbor, and get their

logs at from one dollar to a dollar

and a half a thousand cheaper than

the Puget sound mills. For instance

when we are paying the loggers of

Puget sound \$7 per thousand the

Simpsons are only paying

\$5.50 per thousand for similar logs

on Gray's harbor. With this ad-

vantage in their favor they jumped

into the San Francisco market and

commenced cutting and slashing

prices at a great rate. We saw

that the only salvation for the Pu-

get sound mills was to reduce the

price of logs on the Sound or raise

the price on Gray's harbor. We

organized a company, backed by

ten million dollars if necessary, to

build a mill on Gray's harbor, for

the purpose of regulating the price
